

FORCE CHOKE VICTIM

A REAL AND PRESENT THREAT

Force choking is a very real and present danger in the Galactic Empire. 1 out of 10 officers will witness a Force choke sometime during their career, so it's important to know the warning signs, and what to do should you ever see a Force choke in progress.

WHAT TO LOOK FOR

- 1 Is Lord Vader in the room?
- 2 The victim cannot speak or breathe.
- 3 Did the victim fail Lord Vader more than once?

WHAT TO DO WHEN YOU SUSPECT SOMEONE IS BEING FORCE CHOKED*

- 1 Stand behind the victim. Back up if needed.
- 2 Stay calm. Try making fists with both hands until your nails dig into your palms.
- 3 Remain silent.
- 4 After the choking is complete be ready to accept a promotion should one be offered.

*If you are a Moff ignore above steps and simply say, "Enough of this... Lord Vader, release him."
